GitHub: github.com/Atikbhas

PROFESSIONAL SUMMARY

Versatile and results-driven **Full Stack Software Developer** and BCA student at **Saurashtra University** with proven expertise in building production-ready web applications, scalable backend systems with **Python/Flask** and **PHP**, intelligent **AI & Machine Learning** workflows, and optimized **MySQL/SQLite** database architectures. Passionate about writing clean, maintainable code, implementing responsive modern interfaces, and solving real-world business challenges.

TECHNICAL SKILLS & CORE COMPETENCIES

Languages & Web:	HTML5, Modern CSS3, JavaScript (ES6+), Bootstrap 5, Python 3, PHP 8, SQL
AI, ML & Data Science:	Artificial Intelligence & Machine Learning (AI/ML), Pandas, NumPy, Seaborn, Matplotlib, OpenCV / Computer Vision
Frameworks & Backend:	Flask Framework, PHP MVC, RESTful APIs, Session Security, Authentication & Role Management
Databases & Storage:	MySQL, SQLite, Relational Schema Design, Query Optimization & Performance Indexing
Developer Tools & IDEs:	Git & GitHub, Visual Studio Code, Jupyter Notebook, NetBeans IDE, cPanel / Render Cloud Hosting

FEATURED PROJECTS & PRACTICAL EXPERIENCE

Smart AI Attendance System | *AI & Computer Vision Web Application*

Live on Render

- Built an intelligent automated attendance platform utilizing computer vision & facial recognition algorithms.
- Developed with Python and Flask backend, integrating facial landmark detection to mark student presences in < 0.3s.
- Won College Hackathon distinction; deployed live on Render with automated analytics and instructor dashboards.

J.P. Imitation Jewellery Digital Storefront | *Full Stack E-Commerce & Admin*

Client Project

- Engineered a customized digital catalog and inventory management portal for a high-volume jewelry enterprise.
- Integrated 1-click WhatsApp checkout API, dynamic category filters, high-resolution product showcases, and admin control.
- Optimized SQL queries and frontend assets for lightning-fast mobile catalog browsing.

Zenith Developing | *Freelance Full Stack Engineering & Solutions*

2024 - Present

- Deliver custom full-stack solutions, RESTful API integrations, and UI/UX modernization for diverse clients.
- Provide 100% code ownership, comprehensive documentation, secure authentication, and post-deployment support.

EDUCATION & ACADEMIC QUALIFICATIONS

Bachelor of Computer Applications (BCA)

Rajkot, Gujarat

Saurashtra University | Coursework: Data Science, Machine Learning, Python, DBMS, DSA, Web Systems

Pursuing / Enrolled

Higher Secondary Certificate (HSC / 12th)

Rajkot, Gujarat

Masum Vidhyalay | Strong foundation in computing, statistics, mathematics, and logical reasoning

Completed

Secondary School Certificate (SSC / 10th)

Rajkot, Gujarat

Bhartiya School | Distinction in foundational sciences and analytical problem solving

Completed

LANGUAGES & PROFESSIONAL ATTRIBUTES

Spoken Languages:	English (Professional Working), Gujarati (Native), Hindi (Fluent)
Key Attributes:	Rapid Prototyping, Clean Architecture, Direct Communication, Agile Delivery, Problem Solving
